Lead and beyond

Progress in Eliminating Lead Poisoning and New Opportunities for Collaboration in New Jersey

April 16, 2010

Sheraton Edison Hotel Raritan Center,
Edison NJ

Conference Goals

To update participants about the progress being made in the fight against lead poisoning in New Jersey, and to introduce participants to other environmental health hazards found in homes, schools and workplaces. These hazards include: radon, heavy metals, moisture, mold, poor ventilation, pest control, fungal allergens, and others.

Conference Objectives

1. To highlight accomplishments made towards the Healthy People 2010 objective of eliminating childhood lead poisoning in New Jersey by 2010.
2. To introduce the Healthy Homes model to New Jersey agencies working on lead poisoning prevention.
3. To provide an opportunity for networking, collaboration and partnership development among agencies focused on housing, public health, human services, and the environment.

Keynote Speaker

Terry Brennan, President of Camroden Associates, is an internationally renowned building scientist with a diverse background in indoor air quality analysis, building envelope and HVAC design deficiencies and their solutions, and commonsense answers to difficult building problems. He has served as a consultant to the Institute of Medicine Committee on Damp Indoor Spaces and Health and has worked on a number of EPA/NIOSH projects.

Environmental Track

Workshop #1

Environmental Intervention of the Lead-Poisoned Child
Learn what should occur after a child has been identified with an elevated blood lead level. This workshop will explain the process for implementing environmental interventions; who to call, what should happen and other important steps to remediate the environment and eliminate the risk of exposure.

Sylvia Dellas
NJ Department of Health and Senior Services

Jeryl Krautle and Kate Andrews
Monmouth County Health Department

Workshop #2

New Jersey's Environmental Public Health Tracking Network
Hear about the Environmental Public Health Tracking Network. This exciting new collaboration between the Department of Health and Senior Services and the Department of Environmental Protection links data from existing health effects surveillance systems and environmental hazard monitoring systems. You will learn about the program design, purpose, implementation and the correlation between public health risks and environmental hazards.

Jerald A. Fagliano, MPH, PhD
Richard E. Opiekun, MA, MS, PhD
NJ Department of Health and Senior Services

Workshop #3

Indoor and Outdoor Air, Water and Soil Quality in Schools, Work Sites and Other Public Places
This workshop will focus on environmental hazards found in schools and other public places. You will learn about interventions to correct and remediate various environmental hazards as well as the health effects associated with these environmental conditions.

Joseph Ponessa, PhD
James Blando, PhD
NJ Department of Health and Senior Services

Health Track

Workshop #4

Testing and Case Management of Pregnant Women and Neonates
This workshop will focus on NJ guidelines for testing children, pregnant women and high-risk adults for elevated blood lead levels as well as learning about other hazardous substances that threaten fetal development. Surveillance activities that monitor incidence, prevalence and case management services will also be discussed. Learn about the latest research behind the impetus to test pregnant women for lead.

Nachu Chinnakaruppan, MD
Lehigh Valley Hospital, PA

Morris Cohen, MD
Newark Beth Israel Hospital

Workshop #5

Childcare Provider Education: Regulations and Policies
Learn about New Jersey regulations and policies pertaining to testing children and childcare facilities for lead. Learn how these regulations and policies are being implemented in various childcare settings.

Mary Coogan, JD
Association for Children of New Jersey

Workshop #6

Development of Protective Public Policies
Find out what it means to be a Lead Safe Model City. Learn about protective policies and how they can be implemented. Learn about the Bench Book initiative and how it facilitates enforcement of current laws.

Crystal Motlasz, MS, CHES
NJ Department of Health and Senior Services

Joseph Pargola, JD
Department of the Public Advocate

Housing Track

Workshop #7

Lead Hazard Control Assistance Fund
This workshop will focus on New Jersey housing regulations concerning lead and New Jersey resources available through the Lead Hazard Control Assistance Fund.

Lorraine Nietos
Veronica D'Alessandro
NJ Department of Community Affairs

Workshop #8

Renovation, Repair and Painting: The EPA Rules
In this workshop, you will learn to identify situations where lead-safe work practices must be applied. Understand the distinction between EPA federal requirements and those required by New Jersey state regulations. Learn how to obtain certification in lead remediation.

Jeanette Dadusc
US Environmental Protection Agency, Region 2

Workshop #9

Healthy Homes
This workshop will focus on many other environmental hazards found in the home besides lead and how to correct these conditions in both single-family and multi-family homes.

Terry Brennan
